

BREATHABLE

DURABLE

SOFT HAND-FEEL
50% PrimaLoft® Polyester
50% Merino Wool

FAST DRYING

Better Fibers. Better Yarn.

PrimaLoft introduces a new level of comfort and performance with PrimaLoft® Silver Performance Yarn Merino Wool Blend. Our innovative, market-leading PrimaLoft® fiber technologies have been blended with Merino wool, resulting in a performance yarn that provides the high level of moisture management, superior warmth and durability that you expect from a PrimaLoft® product.

- Merino wool retains warmth when wet
- Excellent warmth to weight ratio.
- Accelerated dry times.
- High-performing, long-lasting durability and easy care.
- Highly breathable.
- High abrasion and better pilling resistance.

It All Starts With The Fiber

PrimaLoft® Performance Yarn 100% Merino Wool Blend combines PrimaLoft® ultra-fine polyester fibers with Merino wool to create a premium comfort solution that keeps you soft, warm and dry. When Merino wool becomes wet an exothermic reaction takes place, allowing the Merino wool to provide warmth, even when wet, keeping the wearer of the garment warm without feeling damp or clammy. The PrimaLoft® polyester fibers' hydrophobicity allows for low retention of moisture and fast dry times.

- 50% PrimaLoft® Polyester, 50% Merino wool.
- Proprietary fiber technology.
- Compact Siro ring spun yarn.
- Dries faster than conventional polyester yarns.

Best Applications

PrimaLoft® Silver Performance Yarn Merino Wool Blend is an ideal choice for socks, accessories, seamless knits, base layers and sweaters.

Footwear

Accessories

Seamless Knits

Base Layers

Sweaters
